

Thomas Swan & Co. Ltd. is a manufacturer of performance and speciality chemicals with over 30 years' experience.

We deliver both complex chemistry and solid or liquid formulations to the agrochemical industry.

Our Custom Manufacture Division works in close partnership with customers to manufacture their products on a contract or toll basis, providing them with the additional capacity and capability they need, whenever required. With a recent investment in our new flexible glass-lined plant, our facility is one of the most sophisticated and technically advanced currently available.

Experience and expertise in the following areas:

Complex intermediate manufacture

Active ingredient formulation

Active ingredient drying and packaging

Solids & liquid product handling in Hastalloy, GLMS & SS equipment

Certified to ISO14001, ISO9001 and verified to CIA Responsible Care programme

EPA registered

Testimonial from a major Agrochemical Customer

“Our company has dealt with Thomas Swan & Company since 1986, during which time they have continuously provided our Agricultural business with excellent support in the area of manufacturing intermediates for actives synthesis. The excellent quality of their work has been a major factor in our success, enabling us to source key intermediate molecules for our manufacturing plants. Thomas Swan is considered by us as a solid and reliable partner, and experts in their field.”
